Re: Security Firm

Dear Emily:

I just wanted to send a thank you for the security company which was present the night of our Annual Awards Dinner, January 28, 2012. They were so professional!! Unlike the other firm we have had in the past, they roamed the area unobtrusively and directed all questions to me in a very professional manner. When things began getting a little more unruly at the event in the Harvest Building, the Supervisor came to take care of some business we still had going on in our building by escorting me out with the money received from our auctions and then back into the building.

In all, they were extremely professional and observant. I would recommend them to others who were looking for security for events based on our interactions with them. They raised the bar.

Sincerely,

Dianne Rossi
Operations Manager
