Rodgers House Committee meeting

Members present, Sue King, Trisha Kett, Mary Travis, Connie Hernandez and Loretta Estrada.

The main purpose of the meeting was to do some yard work, and clean a little on the outside of the house. Things are green with moss due to so much water this winter. Things that need repair: The gazebo has some dry rot on the post and we need to find someone who can make a couple of them for us and change them out. I had tried to put some wood putty in the decaying wood several months ago as a band aid, but it has not really helped at all. Now we are going to have to have it fixed before much longer.

AT&T is finally working on the underground wire outside our gate, so hopefully we will be able to get the bathrooms built on the Heritage Hall before too long. Next will come Charter and then we are ready to see some construction going on, YEH!

We discussed the donated furniture we have received and will be receiving more in the future, we will have to put some of our furniture up stairs until we decide on what to do with the over abundance of chairs.

Trisha gave a tour in the morning to some ladies from a group called not from here!

Upcoming events: June 7, we will meet at the Rodgers House at 9 am and take the trip to the Borondo Adobe in Salinas, it should be a fun filled day, and our first outing in a couple of years. There will be an event at the Castro Adobe, called Boho Castro, Sue thinks it would fun to attend, anyone interested in going contact Sue. Date is June 10th.

Meeting adjourned and we went back outside to do some more yard work.

Sincerely

Loretta Estrada
