

Rodgers House committee meeting

June 13, 2018

Members present; Sue King, Trisha Kett, Connie Hernandez, Joanie Hargis, Kennette Roberts and Loretta Estrada.

The committee discussed the roses and what it is costing to clear up the different diseases that they have. Connie said she purchased some spray from Aladdin Nursery for the cost of \$165.00. I talked about my roses as well and what Aladdin gave me to use. We will compare which is best to use.

I feel bad I have not gotten back to cut the second big bush back, Joanie said she would tackle it while I am gone. Connie said Tuesday is the day she spends at the house, hopefully the two ladies can come at the same time.

I informed the committee that I heard WD40 is good to clean silver with, I will try some at my house and see if it will work for the next meeting when we will be cleaning our silver.

After the huge plants are trimmed we will ask Dave to get us some of the bark to cover up the barren ground and water lines.

Table cloth: the one we love so much is starting to come apart in spots, everyone will be on the lookout for one that is 125/ 64 inches. It would be great to find one just like the one we have now. Everyone keep a eye open for one.

I bought some new love seat and chair pads for the back porch. We received a donation of \$100.00, the money was used for that, and the rest put away.

We discussed if anyone had heard from Marilyn, no we have not, she was suppose to buy the new light bulbs for the house. We hope she is alright.

Trisha showed the committee the new tree that was planted in memory of Jim Rector. It will be full of blossoms in the spring and have Fall colors in the fall.

Meeting adjourned, Trisha went to water the yard, thank God for her and Connie.

Sincerely

Chairperson

Loretta Estrada
